### N. Y. CENTRAL WAS AFFECTED

Liquidation During Day Not Large, but Urgent-Other Depressed Stocks.

NEW YORK, November 15.—The stock market took on appearance of quite severe depression again to-day and sold down for some stocks at n.w. low revels for the year. The liquidation was not large in volume, but it was apparently urgent, and there was no corresponding demand to absorb it. New York Central was the easiest stock to be aff cied, responding to the published reports of the formation of a finance committee to consider the further financial needs of the company and the methods by which they were to be met. The United States Steel Stocks continued to feel the effects of the growing evidence of reaction in that trade, and this was of cumulative effect on the whole list, owing to the importance attached to the fron trade as index of general industrial constitutions. Later in the day the Harriman Pacifics were brought into the depression by the publication of the earnings of the companies for September. Opinion on the gineral situation was distinctly brighter, in spite of the apparent gloom that over preced the stock market. The premium on currency was inclined to relax and olds were not in evidence in some quarters where the demand has made it. self, clearest in the promium operations. Estimates of the we's cash movement indicate a moderate loss by the banks, owing to continued heavy spipments to the interior, but an improved bank position is expected, owight in lack of reflection of the early gold, imports in last week's bank statement.

Ronde were weak. Total seles, par

ind-to-lack of reflection of the early gold imports in last week's bank statement.

Bonds were weak. Total sales, par value, \$3.152.000. United States bonds were unchanged on call.

Total sales of stocks for the day were 775.600 shares.

NEW YORK, November 15.—Money on call firm, 5#15 per cent; ruling rate, 12; closing, effected at 5. Time loans firm and largely nominal; sixty and sinely days, 12#15 per cent; six months. 8 per cent.

Closs: Prime mercantile paper nominally at 7#10 per cent. Sterling exchange firmer, with actual business in bankers' bills at \$187@\$1870 for demand, and at \$4.78\$\$4.79 for sixty-day bills. Commercial bils, \$4.77 1-2. Bar sliver, 58 1-4. Mexican collars, 48 1-4.
